

The City Arts Trust Limited environmental policy

We believe that all businesses are responsible for achieving good environmental practice and operating in a sustainable manner. We are therefore committed to reducing our environmental impact and to continually improve our environmental performance as an integral and fundamental part of our work.

Our policy is to:

- Wholly support and comply with or exceed the requirements of current environmental legislation and codes of practice.
- Integrate the consideration of environmental concerns and impacts into all of our decision-making and activities.
- Use the City of London Festival, its programming and its artists to reflect and communicate environmental issues and concerns.
- Promote environmental awareness amongst all staff (permanent, freelance and volunteer) and encourage them to work in an environmentally responsible manner, ensuring that all staff understand our environmental policy and confirm to the high standards it requires.
- Minimise our consumption of natural resources, especially where they are non-renewable.
- Reduce waste through re-use and recycling and by purchasing recycled, recyclable or re-furnished products and materials where these alternatives are available, economical and suitable.
- As far as possible purchase products and services that do the least damage to the environment and encourage others to do the same.
- Communicate our environmental commitment to partners and to the public and encourage them to support it.
- Encourage all staff and event attenders to use public and alternative transport methods wherever possible.
- Strive to continually improve our environmental performance and minimise the social impact and damage of activities by periodically reviewing our environmental policy in light of our current and planned future activities.
- Update our Environmental Policy annually.

For and on behalf of The City Arts Trust Limited:

Ian Ritchie, Director
